RIVERBOAT GAMBLERS

ALBUM *To the Confusion of Our Enemies* (Volcom)

THE SOUND Garage rock with punk pizzazz

HISTORY After forming in 1997 in Denton, Texas, the Riverboat Gamblers moved to the more musically fertile Austin, where they kicked out their debut, *Something to Crow About*. The album's strength, along with the band's notoriously furious live shows, attracted producer Mudrock (Godsmack, Avenged Sevenfold), who came onboard for *Confusion*.

TALKBOX "I wanted new guitar tones on this album," says guitarist Freddy Castro. "So I experimented with different amps, guitars and pedals, and it made for a far more sonically interesting record."
