

THE RIVERBOAT GAMBLERS

TO THE CONFUSION OF
OUR ENEMIES

(VOLCOM)

KKKK

**TEXAN ROCK 'N' ROLL LUNATICS
PROVE WHAT THEY'RE MADE OF.**

TWO ESSENTIAL things about The Riverboat Gamblers: (a) they have an unerring commitment to being entertaining at all times, and (b) they have absolutely no desire to follow any rules in the process (as anyone who's ever seen them live/ bleeding/ hanging from the rafters can attest). 'To The Confusion...' captures all of their drive, anarchic spirit and personality on record for the first time. They're cynical ('Biz Loves Sluts'), they're sincere ('Don't Bury Me... I'm Still Not Dead'), they're downright bizarre ('Unicorn Shave Your Horn') and this time around; they've written some potentially huge hits ('The Song We Used To Call Wasting Time'). There's nothing contrived here; no egos and absolutely no bullshit – just 14 ass-busting songs that will make you very, very happy.
